

HISTORY OF STEWARDSHIP IN AMERICA

During each morning in the Institute Sessions, we focus on stewardship planning topics. WOW, during the afternoons, we learn about the stewardship of those on the Lewis & Clark Expedition as they found the sea and returned to Washington to meet with President Jefferson. This amazing expedition will come to life in Oregon and Washington as we tour under the leadership of Dr. Scott Preissler, a recognized expert on the topic and a frequent traveler to the area.

The **CAMP 18** dining hall boasts the longest known ridge pole in the U.S. The tables are actually slices from very large trees. You won't want to miss this lumberjack experience.
